GROOMING TABLE – COMPONENTS & ASSEMBLY

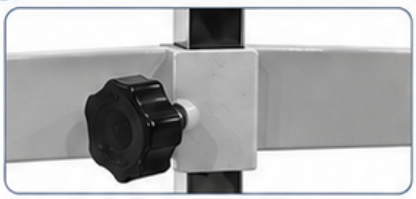

COMPONENT IDENTIFICATION

1. Adjustable levelling foot
2. Height adjustment switch
3. Grooming arm fixing screw
4. Vertical grooming arm
5. Grooming arm height adjustment screw
6. Horizontal grooming arm
7. Horizontal grooming arm locking screw
8. Grooming restraint strap
9. Electric lifting actuator

Important: The plastic cap is fitted for protection during transportation only.

GROOMING ARM ASSEMBLY INSTRUCTIONS

1 Install the vertical grooming arms

Insert the vertical grooming arms (4) into the designated mounting points on either side of the table. Secure both arms using the fixing screws (3), ensuring they are firmly tightened.

2 Adjust the grooming arm height

Adjust both vertical grooming arms to the required height, ensuring they are level before tightening the height adjustment screws (5).

3 Install the horizontal grooming arm

Insert the horizontal grooming arm (6) into the connecting brackets at the top of the vertical arms. Adjust the width to the required position and securely tighten the locking screw (7).

SAFETY & OPERATING INSTRUCTIONS
ELECTRIC GROOMING TABLE – MODEL GW109A

Please read and follow these instructions carefully before using this product.
Keep this manual for future reference. Failure to follow these instructions can lead to serious injury or death, damage to the equipment or invalidate the warranty.

1 GENERAL SAFETY & OPERATION

- This appliance is intended solely for professional dog grooming. It must not be used for lifting people or for any other purpose.
- This appliance may only be operated by trained professionals aged 18 years or over. Children must not operate or play with the equipment.
- Do not exceed the maximum load capacity of 100 kg (220 lbs) when using the table. Ensure the dog is positioned centrally at all times.
- Only one dog may be placed on the table at a time.
- Ensure all four feet are firmly in contact with the floor and the table is positioned on a stable, level surface before operating the table.
- Do not stand, sit, step or climb on the table, base or frame. Do not use the open table top as a step or support.
- Before loading, adjust the table to a suitable height for safe loading. Carefully place the dog onto the table, ensuring it is securely positioned and supervised at all times.
- Ensure the dog remains centrally positioned on the tabletop during operation.
- Once grooming is complete, lower the table to a safe height for removal. Carefully remove the dog from the table and switch off the power supply once the desired height is reached.
- Avoid unnecessary or continuous operation of the lifting mechanism.
- Ensure the dog is kept clear of the lifting mechanism and other moving components at all times. Do not allow dogs to be beneath or near the lifting mechanism during operation.
- Ensure the unit is installed on a stable, level surface and that all components are correctly assembled prior to use.
- Ensure all electrical connections are protected by an IP66-rated socket and a suitable waterproof cover when operating.
- Keep electrical components, including plugs, sockets, controls and cables, protected from water ingress at all times. Do not allow water to come into contact with these parts.
- Do not connect the appliance to an overloaded circuit or shared outlet where this may present a risk.
- Do not allow any person to sit, stand, climb or lean on the table.
- Inspect all structural components, including welding points on the lifting frame, before each use to ensure there are no signs of damage, cracking or fatigue; do not operate the appliance if any defects are identified.
- Inspect painted surfaces regularly, and any damaged or chipped paintwork must be restored immediately to prevent corrosion.
- Always ensure the surrounding area and floor are clean, dry, well-lit and free from obstacles before use to reduce the risk of slips, trips or electrical hazards.
- Keep hands, feet and other body parts clear of moving parts, as this may result in crushing or pinching injuries.
- Never leave a dog unattended on the table and maintain supervision at all times during operation.
- Do not use the equipment if the power cable, plug, transformer, actuator or foot pedal is damaged.
- Do not tamper with, interfere with or attempt to access internal electrical components. Do not insert, poke or prod objects into any openings, controls or electrical parts of the appliance.
- Do not operate the lifting mechanism continuously for more than 2 minutes. Allow a minimum rest period of 18 minutes between cycles to prevent overheating.
- Always use appropriate restraints where necessary to ensure the safety of the dog.

2 CLEANING, MAINTENANCE & FAULTS

- Disconnect the appliance from the power supply when not in use and at the end of each working day.
- Disconnect from the power supply before cleaning, inspection or maintenance.
- Clean using a dry or slightly damp cloth ololy. Do not use corrosive, abrasive or solvent-based cleaning agents.
- Do not use water to clean electrical components, including the controller, foot pedal or actuator, due to risk of electric shock.
- Regularly inspect the appliance to ensure it remains in a safe working condition. All repairs must be approved by Groomers World.
- In the event of abnormal operation, stop use immediately, isolate the appliance from the power supply and do not attempt to repair or disassemble the unit. Contact **info@groomersworld.co.uk** for further assistance.
- Do not modify the equipment in any way. Use only Groomers World approved parts and accessories.
- Ensure all safety labels remain present, clean and clearly legible at all times; if not, contact us at **info@groomersworld.co.uk**.
- The expected service life of this appliance is 3 years under normal use and maintenance.

3 WARRANTY EXCLUSIONS

This warranty does not cover faults or damage caused by misuse, neglect, accidental damage, failure to follow instructions, unauthorised repairs or modifications, normal wear and tear, unsuitable operating conditions, improper maintenance, transportation damage after delivery, or use of non-approved parts or accessories. This warranty does not affect your statutory rights under UK consumer law.

4 LIMITATION OF LIABILITY

To the fullest extent permitted by law, the supplier shall not be liable for any indirect or consequential loss, including loss of profits, revenue, goodwill, or third-party claims. Nothing in this warranty excludes or limits liability for death or personal injury caused by negligence, fraud or fraudulent misrepresentation, or any liability that cannot be excluded under UK law.

Do not use this device in a bathtub, shower, or water-filled reservoir.
WARNING: Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

This marking indicates that this product should not be disposed of with other household waste throughout the UK.
To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources.
